Created: Christmas 2013

Price: \$280.00

JAMES REDWAY

Furniture Makers

The Christmas Table has been our signature piece since we began making furniture back in 1986. The Christmas Table is handmade and constructed of solid American Black Cherry using traditional mortise and tenon joinery. The tenons are pinned with hand-planed Black Walnut pegs, and the table is finished with 5 coats of hand-rubbed Tung Oil / Teak Oil for a silky-smooth finish.

Along with the graceful tapered legs and our Cupid's Bow skirt, this piece makes a beautiful side table in any room in your home. It also makes a great place to lay out milk and cookies for Santa on Christmas Eve.

The table top is made up of three boards from the same plank of cherry, so the pieces match in both grain and color. Since this piece was made in December of 2013 it has developed a beautiful patina that only cherry can provide. I am really surprised it has not sold by now.

The top is extremely beautiful with its quilted grain pattern, and it is fastened to the table frame using cherry cleats that ride along a dado that allows the top to move with changes in the seasons and humidity. The stand is signed, dated, numbered and branded with our hallmark.

Christmas Table #289 is ready to ship or pickup at the Silver Cherry **Made to last for generations. 30 Day Money Back Guarantee and Lifetime Warranty On Workmanship.**
